About Me

I am a hardworking and responsible programmer with two years of commercial development experience in frontend. I have experience with React and TypeScript. I have a good understanding of layout design and excellent knowledge of JavaScript. But I can learn any technology in a reasonable amount of time if needed.

Education

Petrozavodsk State University   Petrozavodsk, Russian Federation
M.S. in Mathematics   09/2018 - 06/2020
Petrozavodsk State University   Petrozavodsk, Russian Federation
B.Eng. in Electronics   09/2014 - 06/2018

Experience

Front-end Developer   inter://so   02/2022 - 09/2022

- At inter://so, I worked as the main front-end developer on their startup project. I started the project from scratch and was responsible for the project architecture and technologies used.

Front-end Developer   axmit   06/2019 - 10/2020

- In axmit I worked on many outsourcing projects, such as Zelos and Activatica. I was mostly involved in project support. I mean fixing bugs and adding new features.
